AUTHOR'S WORDS

I bought a Mackintosh recently, but because I'm a beginner, I had to learn from beginning how to type. It's painful but fun too. I can draw coloured paintings, do web pages... Currently, I'm busy learning more about the computer everyday. Unfortunately, it broke down after only a month. Now I'm really scared that it will show the bomb symbol for break down whenever I use it.

When I was small, my family was very rich

We have a very big garden just like a palace

I like to play the princess game in the big garden

The son of the rich family next door would play the prince

The servants children would be the manservants or horse

Those times were happy like a dream...

But that lifestyle,

with the bankruptcy of father's company—

came to an end...

IS ABOUT TO COME!
BUT FOR ME, OKAWA HANAKO,
THE CHANCE TO GET THAT LIFESTYLE BACK
HMM, THEREFORE —
THEY'LL BE WORKING HERE FROM TODAY..
THIS IS SAKURAI TAKAFUMI! AND...
WAH — MY PRINCE —
Doki Doki
HAZUKI REIJI.

I used to be a working class, so I'm really good with working class stories. I can use the abacus and do accounts but computers are used nowadays.
I want to set up EXCEL by myself but I'm not sure if I can do it.
